MAN HUNTING.

John Boyd Comes Very Near Bagging Some Game Badly Wanted in Tennessee.

Deputy sheriff John Boyd accompanied by Benton Brown, of Crofton, went over into Muhlenberg county a few days ago to capture a couple of jail-birds for whom a reward of \$300 was offered. They were escaped convicts from the Tennessee penitentiary and their names are Sam Jarrett and Mark Seay, though they go under various names. Both are colored, the former being a mulatto. Jarrett was a life prisoner for murder. He recently escaped by killing a guard, came into Logan county, stole a mule which he sold in Todd and went into Muhlenberg county where he was at work at Red River coal mines. Seay, who was in for three years, escaped with him and was with him in Muhlenberg. Officer Boyd heard of them and upon reaching the locality summoned a posse and surrounded the house, and then went up to the front door and called them by name and ordered them to come out. Seay came out and exclaimed "Fore God, man, I ain't done nothing!" Boyd covered him with his revolver, and ordered him to throw up his hands, which he did, at the same time whirling quick as a flash and darting back into the house, and both of them escaped from the back door, broke through the line and got into the woods. A dozen or more shots were fired at them but without effect. They are still at large.

Seven O'clock.

Shall the stores be closed by seven o'clock? This is a question generally discussed in the houses and on the streets. I have talked with quite a number of customers and find them unanimous in the desire that, Saturday nights excepted, the stores shall be closed at the above hour. The wives, sisters and sweethearts of the salesmen, those who control the shopping, earnestly desire to be heard from, and if a petition should be passed around will sign it on every side and on every line. A paper has been signed by all the prominent merchants to this end, with but two or three exceptions. The day set to begin is Monday. The friends of the movement will anxiously await the decision of the hesitating.

A CUSTOMER.

J. K. Mulkey will make a summer tour of both Mexico and the Pacific slope in a magnificent car built for the Courier Journal and the New York Graphic. The trip will embrace the entire Gould system of railways in the interest of both papers.

HERE AND THERE.

Ben Thompson, Life Insurance.

Howe's time is the city standard.

Campbell and Rodgers, Ins. Agts.

Clapboards at J. G. Hord's.

Star Cement at J. F. Pyle's.

The law protecting squirrels ceased to be in force June 15.

Capt. D. R. Beard is having his residence on South street remodeled.

See the elegant line of new style Lace Pins and Bracelets just in, at Howe's Jewelry Palace.

A great many laborers left the city this week to work in the harvest field at \$1.50 a day.

Messrs. Rabbeth & Brownell are erecting a large addition to their milling establishment on Railroad street.

Next Monday will close the half-year's business with all business men who sell on a credit and there will be many a collector out on a wild hunt for money next week.

Mr. Jas. M. Howe, our leading jeweler, has just received the largest stock of Watches we have ever seen and is selling them at greatly reduced prices.

Thrasher men and farmers, if you want to save money and work, and have you straw stacked in a first-class manner, be sure to get a new Reeves Stacker of Forbes & Bro. Give this matter your prompt attention.

Mr. C. W. Ducker's cottage on Nashville street, has been the object of much admiration and comment this week. He has had it painted amber, with bright red trimmings and black windows and doors. It is entirely different from every other house in the city.

Policeman Wadlington's residence was entered by a sneak-thief Tuesday night. His hall door was open and the intruder passed through the hall into his bedroom and took his pants containing his watch and pocket-book. They were rifled of all valuables and left in the hall and Mr. Wadlington knew nothing of his loss until the following morning.

We feel complimented when we see many of our ideas pertaining to our business copied by other houses in the jewelry trade, which is an acknowledgment of our claims, that M. D. Kelly is the leading jeweler of Western Kentucky, which surely is no empty claim, as he has the largest practical experience of any in this end of the State.

The statement recently made that Rev. J. C. Tate had resigned the pastorate of the Southern Presbyterian church here was incorrect. He has signified his intention to hand in his resignation at the meeting of the presbytery Oct. 7th. It may or may not accept his resignation. Mr. Tate has been pastor of the church here for fourteen years and is very popular not only with his own people but with his neighbors and acquaintances generally. The people of Hopkinsville will be glad to know that it is not his intention to leave the city in the event that his resignation is accepted.

A FEARFUL FALL.

Zeno Young Probably Fatally Injured.

(By Telephone to South Kentuckian.)

MADISONVILLE, KY., JUNE 26.—Zeno F. Young, editor of the Times, was fearfully mangled and it is feared fatally injured by a horrible accident yesterday morning. He was sitting by his office window, in a third-story, when a friend called to him from the street to throw him a copy of his paper, which was just out. In reaching out of the window to do so, his chair slipped and he fell headlong to the pavement below, a distance of 24 feet. He was falling head-foremost but managed to grasp the limb of a small tree, which broke his fall to some extent and threw him on his side instead of his head. It was a frightful fall notwithstanding this and one jawbone was broken in two places, three ribs were broken and one thigh fractured, besides serious internal injuries sustained.

He hung between life and death all day yesterday and in the evening reaction took place and he rested tolerably easy during the night. This morning he is some better and the doctors think his chances to recover are about even with those against him. He is perfectly conscious at this time (10 o'clock, a. m.) and has been all the time.

HOW THE NEWS WAS RECEIVED HERE.

Mr. Young has often visited this city and has a large number of warm friends here and when the news of his injury was received the city was quickly thrown into a fever of excitement and the wires were put to work to learn the particulars. His case was reported hopeless and a gloom pervaded the city that could not have been exceeded in his own town. Everybody who knows him likes him and there is not a more popular man with his friends, or with his press brethren, in the whole state.

Mr. Young expected to arrive here at 12:30 o'clock on a visit to the writer, "he day he was hurt. He is a handsome, jolly, genial gentleman, 35 years old. He weighs probably 180 pounds, has black hair and mustache full face and bright black eyes. Physically he is robust and muscular and in perfect health and his friends will not believe that he is to die, but will hope even after hope was fled.

The Missouri river is to be bridged at Leavenworth, Kan.

A Trip to Cadiz via Cerulean Springs.

On last Sunday evening about 4 o'clock we started on the above named trip, in a low-necked buggy, and the weather being as warm as it could possibly be without melting the vehicle; nothing happened to mar the pleasure of our trip except our inability to hold an umbrella, watch the course of the sun, drive and wipe the perspiration from our moistened brow. We found the roads rather rough in some places, and we would suggest that they be worked before travel commences to Cerulean.

We arrived at the famous watering place at about half past seven, and we were met by the clever proprietor, Mr. Harper, who made us feel as comfortable as one could wish for the short time we stayed. The next thing on the programme was to partake of supper, and after being seated the first thing we were asked to partake of was "Spring chicken," for which Cerulean has gained a wide reputation for the best. We questioned Mrs. Harper as to the "crop" this season, which she informed us was a short one, but said she had out several buyers and thought she would be able to supply the demand. The shade trees planted a few years ago now afford ample shade in front of the building, and add much to the beauty of the place. The springs are now open to guests, and everything will be done to make their stay pleasant. This watering place has all the requisites for those seeking pleasure, health and retirement from the busy bustle of city life, as all who have visited it will testify. A good band will be in attendance as usual, and the young people's interest will be looked after as before. Mr. Harper will run his hack to and from the springs for the convenience of persons wishing to go to and from Cerulean.

To those who like barbecued meats sulphur water, and a good time in general we would suggest that you attend the big barbecue at Cerulean on July 4th. Speeches will be made by prominent gentlemen, and nothing will be left undone that will add to the enjoyment of those who attend.

The next morning we ate an early breakfast and started for Walloua, which we found to be a thriving little town. There was nothing doing much in a business light, and as justice court was in session, the merchants had more time to attend.

We next proceeded to Cadiz, and found that most of the boys had gone down to the "big spring" to keep cool. The town is still on the improve and new dwellings and business houses are being erected.

One Mr. Hall from Clarksville, will open a large dry-goods store opposite the hotel in a few days.

The young people have been enjoying themselves very much lately by participating in parties, dances, etc., and there is more life in Cadiz socially than there has been for years.

TRENTON, KY.

We saw a man yesterday who didn't complain of the warm weather. No matter how many expressed their opinion on this much discussed subject he hadn't a word to say. He took everything calmly and didn't murmur a particle. The man was dead.

The weather clerk seems to be getting things warm in order to go along with the Democratic Convention at Chicago.

Col. Mint Julep, a distinguished southern jurist, is in the city and will remain during the summer.

Col. John C. Day, of your city, came down last week to kill all the bull frogs in this country. He got off the train at the tank, four miles from this place and pursued the frogs with all the ardor and warmth of a celebrated nurod. After having killed quite a large number of frogs with his trusty sling, he would faint have wandered by the brook side to cool his large and expansive forehead. The brook failed to materialize and he made for the tank to take the three o'clock train for Hopkinsville where beer and thermometers were as plenty as the sand on the sea, as it were. The train having urgent business in Pembroke and not needing a drink, gently but firmly refused to stop at the tank. The colored saw the train disappear in the distance, as all trains usually do, and the further the train left him the more he conversed with himself. After having been stabbed by sixty five mosquitoes he started up the grade for Trenton at the frightful speed of two miles an hour. He arrived here at 5:45 having made the run in two hours and twenty five minutes. He had several hot boxes and had to side track for repairs. He walked thirteen miles that evening and says the next time he comes out here hunting frogs the thermometer will be way down below zero. Thus ended one of the most memorable as well as the warmest hunts in the history of Todd county.

A crowd of young people from this place went to Dunbar's cave Tuesday.

An iron roof is being put on the mill and elevator.

A little ice cream would be in order now. We mention this fact because some of our friends might want to "set em up."
